Experience

iLab Africa | Nairobi, Nairobi Area

Web Developer Intern | 05/2023 - 07/2023

- Leveraged my expertise in modern web applications to document software for multiple concurrent projects, ensuring clear and user-friendly guides for both developers and end-users.
- Applied a strong understanding of HTML, CSS (including SCSS), and JavaScript to design mockups and wireframes that seamlessly translated into responsive and visually appealing user interfaces for various projects.
- Developed the authentication module for a single project, utilizing JavaScript and TypeScript to create secure and efficient user authentication flows.

Willfreight Express Cargo Services Limited | Nairobi, Nairobi Area

Web Developer Intern | 01/2023 - 03/2023

- Collaborated closely with UX experts, designers, and server-side developers, facilitating effective communication and alignment to deliver high-quality products.
- Actively employed Git for version control, enabling seamless collaboration and tracking of project changes.
- Prioritized accessibility and SEO best practices throughout the design and development process, ensuring an inclusive and discoverable user experience.
- Demonstrated keen attention to web performance optimization in complex user interfaces, resulting in efficient and responsive applications across a wide range of devices and browsers.

Skills

Front-End Technologies, TypeScript, Responsive Design, Version Control, UI/UX Design Collaboration, Web Performance Optimization, SEO and Accessibility, Software Documentation, Problem Solving, Collaboration, Adaptability

Education

Strathmore University | Nairobi, Nairobi Area

Informatics and Computer Science | 06/2024

- Completed courses in: Web Development and Design · Front-End Frameworks · Software Engineering · UX Design · Database Systems · Web Security · Web Performance Optimization · Mobile App Development · Agile Development · Software Documentation and Technical Writing
- Dean's List Award 2022/23 · Dean's List Award 2020/21

Bmo University of Technology | Bmo

Machine Learning | 07/2023

- Completed courses in: Scikit-learn · Python · Genetic Programming · Clustering · OpenCV · NumPy · Computer Vision · Image Processing · Video Processing · Natural Language Processing (NLP) · Natural Language Generation · Large Language Models (LLM) · Neural Networks · Convolutional Neural Networks (CNN) · PyTorch · Pandas

Moringa School | Nairobi, Nairobi Area

Software Engineering | 06/2023

- Completed courses in: HTML · CSS · JavaScript · React · Ruby · Ruby on Rails
